EXPERIENCE

Banner Health

Arizona, United States

Business Analytics Graduate Intern

Jun 2025 - Aug 2025

- Developed a dashboard with forecasting functionality to monitor travel nurse staffing across facilities, units, and specialties, reducing manual tracking time by 40% and improving visibility for leadership.
- Automated transport operations reporting, enabling accurate tracking of request-to-start and start-to-completion times by equipment type and department resulting in a 25% improvement in reporting efficiency.
- Designed a centralized performance scorecard for the transport team, replacing multiple separate manual sheets, increasing reporting accuracy by 30% and enabling real-time performance monitoring.
- Shadowed Finance, Supply Chain, and Operations Analytics teams to gain exposure to enterprise-level analytics and performance improvement strategies across multiple service lines:
 - Observed financial reviews and variance analysis using Axion and Lawson to enhance financial tracking awareness.
 - Learned Power BI dashboard development using Teradata for real-time provider volume reporting.
 - Gained insight into cost variance analysis reports categorized by department, account, and item type, including how high-cost items are tracked to support procurement efficiency.
 - Explored OR utilization, blocked scheduling, and surgical cancellation analysis for operational improvement.

Yas Clinic Khalifa City Hospital

United Arab Emirates

Senior Financial Analyst

Mar 2023 - Dec 2024

- Developed and maintained interactive dashboards to track key performance indicators (KPIs) such as patient count, revenue, collections, and other operational metrics, providing real-time insights for management decision-making.
- Analyzed doctor-wise revenue and insurance denials, advising the Revenue Cycle Management team on documentation training, leading to a AED 5Mn increase in receivable payments and a 15% reduction in insurance denials.
- Assessed department patient volume, notifying the operations team, which led to optimized scheduling and a 20% increase in patient volume over six months.
- Supported strategic decisions through financial analysis and cost-saving initiatives
- Developed financial models to forecast outcomes and assess potential risks and opportunities.
- Collaborated with department heads to create and manage annual budgets, aligning with strategic objectives.
